Local Kids Club Staying Open for Children of Essential Workers

April 15, 2020 (Brunswick, Georgia) – Brunswick Kids Club is working diligently to remain open for essential front-line workers needing child care during the COVID-19 pandemic. They have expanded their hours and are intently focused on providing a safe, loving, and nurturing environment for those children whom need it most during this critical time.

Laney Murphy, Brunswick Kids Club Director, said “The safety of our team members and the children in our care is our utmost priority. We vigilantly monitor the guidelines directed by all governmental, licensing, and health organizations and have implemented disinfection measures as recommended by the Centers for Disease Control. It hasn’t been easy but I feel like it is the least we can do for all of the healthcare workers, law enforcement officers, government officials, and emergency responders that are serving our community when we need it most. We are doing everything in our power to stay fully operational for each of them and their precious children.”

Brunswick Kids Club is known for offering after-school and summer programs for children in Glynn County. They have temporarily shifted their services to begin at 7am and conclude at 6:30pm Monday through Friday to accommodate children ages 5 to 12 years old. They are allowing daily drop ins, as well as, week to week enrollment for as long as they are able.

Murphy continued, “We always have a lot of fun here. However, right now we are taking it to a whole other level! Our mission is to be a positive light in these children’s lives and bring them as much joy as possible during this stressful time. They love having cookouts with Stevie – our assistant director...they paint, play, tumble, go outside as much as possible.... pretty much anything that is fun, safe, and will bring a smile to their face we will do!”

It appears that the essential workers taking part in the Brunswick Kids Club extended child care services are very appreciative that this service is being offered in their local community. Stacy Lee, local healthcare worker, stated on their Facebook page how grateful she was to have emergency care for her son during this time. Another parent whom works for an essential governmental agency, Tracy Ann Gwin, said, “Thank you, Brunswick Kids Club for providing some normalcy for our little one in these “un-normal” times. She misses school so much and would be lost without her friends at BKC!” “The staff is wonderful and friendly,” stated fellow parent Leslie Nelson, “they put a lot of effort into finding fun creative learning activities for the students. They provide a safe and caring atmosphere and truly get to know each of the kids and families.”

Brunswick Kids Club is considered an essential business per COVID-19 governmental standards.
