Clear Capital Partners Acquires Premier Childcare Facility in Texas

March 16th, 2021 (Orange Beach, Alabama) – Clear Capital Partners, a mergers and acquisitions firm, based in Orange Beach, Alabama, is excited to announce its acquisition of *Stepping Stones Academy*, a top-tier childcare facility in Keller, Texas.

For over fifteen years, Stepping Stones Academy has provided premier childcare services to families in the Tarrant County area. “Their expansive 8,000 sq. ft. facility featuring open classrooms, spacious indoor and outdoor play areas, a full-service kitchen, and an on-staff chef who daily prepares nutritionally balanced meals for the children were all crucial factors in our decision to purchase this center. Amenities such as these are rarely found in childcare facilities and, in light of the pandemic, perfectly align with our company’s advanced safety protocols and initiatives,” said Erin Sullivan, Vice President of Operations for The Bright Ideas Family (subsidiary of Clear Capital Partners).

Bruce Schultes, previous owner of Stepping Stones Academy, wouldn’t let his cherished childcare facility go to just anyone. According to Bruce, “I knew Stepping Stones would be in great hands when I met the team at Clear Capital Partners. They are first class childcare providers and it’s easy to see their commitment and dedication to each of their childcare facilities.”

“We are proud to have Stepping Stones Academy join the Bright Ideas Family,” said Alan King, Chief Financial Officer at Clear Capital Partners. He continued, “Our team looks forward to continuing to provide exceptional childcare services to families in Keller and the surrounding areas.”

Stepping Stones Academy is located at 11655 Alta Vista Road, in Keller, Texas, 76244. They provide childcare services Monday – Friday, from 6:30am – 6:30pm, for children ages six weeks through kindergarten. For additional information, to request a tour, or to register they may be contacted at 817-562-4600, office@ssakeller.com or www.TheSteppingStonesAcademy.com.
